

Az elősíndart ragaszd az első kerék
 belső felén lévő piros leglágra!

A legutólsó két 24x32-es mérleget is rögzítsd fel,
 egyet pedig a vízszel párhuzamosan a 2 tartóval!

Ezekből formázz egy félkört
 és ragaszd a fülkére úgy hogy
 az eleje és az oldalára is átérjen.
