A tülköt jelölt vonal mentén hajtsd vissza az alsó részhez. X-el jelölt részektől vágd ki!

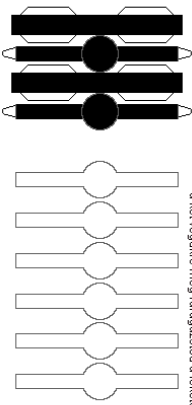

4 pótkerék

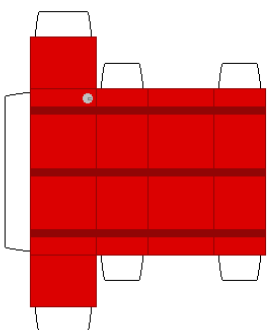

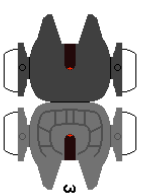

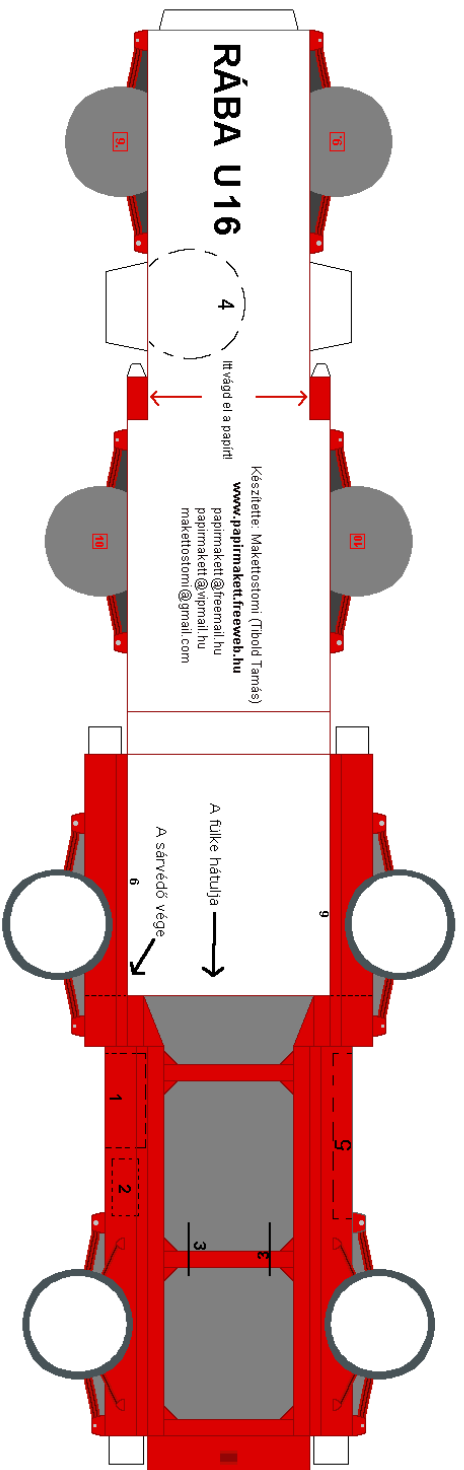

9  
A hátsó hídakat ragaszd a kerékek belső felén lévő prosz kerékre!  
A hátsó hídakat összeragaszthatod az előző sablonból is, de ha az nem érneked töltek, akkor ezekkel 6-6-ot összeragasztasz egymással a két végükre meg ragasztod a feltele részekkel, és ugyanazt az eredményt kapsz!

10  
Az előhídat ragaszd az első kerékek belső felén lévő prosz tegelelprai
